DOCUMENT RESUME

ED 040 072 SE 008 753

AUTHOR	Cohen, Maxwell
TITLE	1960-69 Cumulative Index of Articles Related to Oceanography and Limnology Education in The Science Teacher.
INSTITUTION	National Science Teachers Association, Washington, D.C.
PUB DATE	[70]
NOTE	13p.
AVAILABLE FROM	National Science Teachers Association, 1201 16th St., N.W., Washington, D.C. 20036 ($0.25)
EDRS PRICE	EDRS Price MF-$0.25 HC Not Available from EDRS.
DESCRIPTORS	*Bibliographies, Biology, Course Descriptions, Earth Science, *Indexes (Locaters), *Oceanology, Science Activities, Science Equipment, *Secondary School Science

ABSTRACT

Indexed are articles relating to oceanography and limnology published in "The Science Teacher" between 1960 and 1969. Articles are indexed under title, author, and topic. Topics include background information, course descriptions, and laboratory equipment and techniques. (EB)

TITLE INDEX

Aboard the Ridgely Warfield -- Earth Science Teachers Go to Sea. J. R. Schubel. 36:36-8. March 1969.

Aging Fish from Their Scales. Kenneth A. Henry. 32:58-9. May 1964.

Algae, A Simple Tool for Teaching Scientific Method. Glenn W. Murphy. 33:56-7. May 1966.

Algae Mounts Simplified. George Renwick. 33:65. October 1966.

American Littoral Society Offers Youth Program. Editor. 32:90. May 1965.

Aquatic Investigations Project. Archie J. Nicolette. 29:39-43. March 1962.

Balancing Act -- Sixty Aquaria. Elmo Little and Robert Gantert. 33:49-50. September 1966.

Biological Diver Under Antarctic Ice. Otis Clingman, Jr. 33:23-7. December 1966.

Biological Specimen Preparation. Frank E. Wolf. 30:15-8. May 1963.

Challenge of Inner Space, The. Feenan D. Jennings. 28:6-14. April 1961.

Civilizing Current, The. Raymond Schuessler. 36:49. September 1969.

Conductivity Apparatus. Richard L. Hutchens. 28:37. March 1961.

Cooperative Science Teaching. Robert L. Gantert. 29:53-7. October 1962.

Coriolis Force. John Lyman. 28:49-51. April 1961.

Corrosion Demonstration. Jerry C. Wood and Charles N. Ott. 29:47. March 1962.

Creative Research with Planaria. Louis Panush. 28:20-3. November 1961.

Culture Media for Protozoa and Algae. Editor. 28:27. May 1961.

Denny Lake Project, The. David M. Totman. 33:24-5. January 1966.

Determination of H_2S in Water. Ray Greisinger. 34:62. September 1967.

Discolored Water. E. C. Stephan. 29:6-11. November 1962.

Ecology of Sand Dunes, The. William H. Amos. 35:15-9. February 1968.

Environmental Study in Biology, An. Thomas M. Haynes. 28:33-7. April 1961.

Future of Man's Environment, The. Robert W. Lamson. 36:25-30. January 1969.

Global Thirst and the International Hydrological Decade. Raymond L. Nace. 32:12-6. January 1965.

H_2O in Biological Systems. Robert K. Jennings. 32:15-7. February 1965.

Hydras -- Relaxation and Wholemount Preparation. Peter A. Thomas. 32:54. March 1965.

Hydrology -- the Science of Water. George C. Taylor, Jr. 32:26-9. January 1965.

Inexpensive Electrodes for the Electrolytic Decomposition of Water. John DeRoy and Charles M. Shull. 34:61-2. September 1967.

Investigation of the Tides: Are They Related to the Moon?, An. Robert G. Anderson. 35:21-3. April 1968.

Lamprey -- Typical Chordate. John H. Rosengren. 34:62-3. October 1967.

Living Light. William D. McElroy. 33:17-20. January 1966.

Living Rock and Fossil Energy. Preston E. Cloud, Jr. 32:21-4. December 1964.

Marine Biology ... A Summer Enrichment Course. Ronald B. Linsky. 34:40-1. September 1967.

Marine Geochemistry. John Lyman. 34:27-30. May 1967.

Marine Geophysics, 1944 to 1966. J. B. Hersey. 34:15-20. December 1967.

Marine Laboratory for High School Biology. John T. Woolever. 30:12-3. December 1963.

Marine Science Seeks Technicians Among the Disadvantaged. Robert B. Abel. 35:28. October 1968.

Microrelief on the Sea Floor. Carl J. Shipek. 28:6-13. October 1961.

Minerals in Water. Herbert A. Swenson. 32:17-21. January 1965.

Mobile Science Classroom. James A. Johnson. 30:21-2. March 1963.

Model Science Laboratories. Ferdinand S. Ruth. 36:49-51. February 1969.

Ocean Tides. Steacy D. Hicks. 32:11-4. December 1965.

Oceanography: A Vehicle for Integrating Science Concepts. .. Forbes, G. B. Thomson, and J. Soderberg. 36:40-2. March 1969.

Oceanography for Teachers, a Unique Summer Program. Victor T. Neal, 35:37. February 1968.

Oceanography in the High School Curriculum. J. C. Moutovic. 34:55-7. May 1967.

Oceans -- Promise and Challenge, The. Charles R. Stephan. 32:9-11. April 1965.

Osmoregulatory Behavior in Shore Crabs. L. Jack Whitney. 36:58. September 1969.

Our Last Valley -- Who Will Listen? Editor. 32:33-4. December 1965.

Our Ocean Planet. "Introduction." Victor J. Linnenbom. 34:25-6. May 1967.

pH Indicator, The. John H. Stock. 29:28-31. November 1962.

Physical Properties of Liquid Mixtures. Allen L. Hansen. 28:43-7. February 1961.

Properties of Simple Liquids. Stuart A. Rice. 35:17-9, 74-7. May 1968.

Role of Geophysics in the New Global Tectonics, The. Albert J. Rudman. 36:21-6. October 1969.

Simple Method for Measuring Relative Viscosities, A. Richard W. Moore. 34:65-6. March 1967.

Smithsonian Oceanographic Sorting Center, The. Staff of the Smithsonian Oceanographic Sorting Center. 36:29-31. March 1969.

Steps in Man's Return to the Sea. Walter F. Mazzone. 33:21-3. November 1966.

Studying the Ocean Frontier. Joseph R. Krupowicz. 36:39-40. March 1969.

Versatile Diatom, The. Edwin T. Moul. 29:6-9. April 1962.

Water Sampling Apparatus and Determination of Dissolved Oxygen in Water. Thomas P. Evans. 36:56-7. May 1969.

Waters of the Earth. Raymond L. Nace. 30:6-13. April 1963.

What is a River? Roy E. Oltman. 32:22-5. January 1965.

Fish, determination of age. Aging Fish from Their Scales. Kenneth A. Henry. 32:58-9. May 1964.

Geochemistry. Marine Geochemistry. John Lyman. 34:27-30. May 1967.

Geophysics. Marine Geophysics, 1944 to 1966. J. B. Hersey. 34:15-20. December 1967.

Geophysics. The Role of Geophysics in the New Global Tectonics. Albert J. Rudman. 36:21-6. October 1969.

Global tectonics. The Role of Geophysics in the New Global Tectonics. Albert J. Rudman. 36:21-6. October 1969.

Gulf Stream. The Civilizing Current. Raymond Schuessler. 36:49. September 1969.

Hydra, preparation of. Hydras -- Relaxation and Wholemount Preparation. Peter A. Thomas. 32:54. March 1965.

Hydrogen sulphide detection. Determination of H_2S in Water. Ray Greisinger. 34:62. September 1967.

Hydrology. Hydrology -- the Science of Water. George C. Texler, Jr. 32:26-9. January 1965.

Hydrology. Waters of the Earth. Raymond L. Nace. 30:6-13. April 1963.

Hydrology. What is a River? Roy E. Oltman. 32:22-5. January 1965.

Information sorting. The Smithsonian Oceanographic Sorting Center. Staff of the Smithsonian Oceanographic Sorting Center. 36:29-31. March 1969.

Instrumentation. The pH Indicator. John H. Stock. 29:28-31. November 1962.

Johns Hopkins University. Aboard the Ridgely Warfield -- Earth Science Teachers Go to Sea. J. R. Schubel. 36:36-8. March 1969.

Laboratory facility. Marine Laboratory for High School Biology. Woolever, John T. 30:12-3. December 1963.

Laboratory facility. Mobile Science Classroom. James A. Johnson. 30:21-2. March 1963.

Laboratory facility. Model Science Laboratories. Ferdinand S. Ruth. 36:49-51. February 1969.

Lake investigation. Mobile Science Classroom. James A. Johnson. 30:21-2. March 1963.

Lake investigation. Aquatics Investigation Project. Archie J. Nicolette. 29:39-43. March 1962.

Lake investigation. The Denny Lake Project. David M. Totman. 33:24-5. January 1966.

Lamprey. Lamprey -- Typical Chordate. John H. Rosengren. 34:62-3. October 1967.

Learning in Planaria. Creative Research with Planaria. Louis Panush. 28:20-3. November 1961.

Marine science laboratory. Marine Laboratory for High School Biology. John T. Woolever. 30:12-3. December 1963.

Minerals, dissolved. Minerals in Water. Herbert A. Swenson. 32:17-21. January 1965.

Mobile Laboratory. Mobile Science Classroom. James A. Johnson.
30:21-2. March 1963.

Ocean engineering. The Oceans -- Promise and Challenge. Charles R. Stephan.
32:9-11. April 1965.

Oceans, potential use of. The Challenge of Inner Space. Feenan D. Jennings.
28:6-14. April 1961.

Oceanographic information sorting. The Smithsonian Oceanographic Sorting Center.
Staff of the Smithsonian Oceanographic Sorting Center. 36:29-31. March 1969.

Osmoregulation. Osmoregulatory Behavior in Shore Crabs. L. Jack Whitney.
36:58. September 1969.

Oxygen, determination of dissolved. Water Sampling Apparatus and
Determination of Dissolved Oxygen in Water. Thomas P. Evans. 36:56-7. May 1969.

pH. The pH Indicator. John H. Stock. 29:28-31. November 1962.

Photography, underwater. Microrelief on the Sea Floor. Carl J. Shipek.
28:6-13. October 1961.

Physical properties of liquids. Properties of Simple Liquids. Stuart A. Rice.
35:17-9, 74-7. May 1968.

Planaria. Creative Research with Planaria. Louis Panush. 28:20-3. November 1961.

Plankton. Discolored Water. E. C. Stephan. 29:6-11. November 1962.

Plankton, mounting. Biological Specimen Preparation. Frank E. Wolf.
30:15-8. May 1963.

Pollution investigation. Aquatics Investigation Project. Archie J. Nicolette.
29:39-43. March 1962.

Preservation of plankton. Biological Specimen Preparation. Frank E. Wolf.
30:15-8. May 1963.

Properties of liquids. Physical Properties of Liquid Mixtures. Allen L. Hanson.
28:43-7. February 1961.

Protozoa, culturing. Culture Media for Protozoa and Algae. Editor. 28:27. May 1961.

Red tide. Discolored Water. E. C. Stephan. 29:6-11. November 1962.

Reefs, coral. Living Rock and Fossil Energy. Preston E. Cloud, Jr.
32:21-4. December 1964.

Regeneration in planaria. Creative Research with Planaria. Louis Panush.
28:20-3. November 1961.

Respiration of fish affected by temperature. An Environmental Study in Biology.
Thomas M. Haynes. 28:33-7. April 1961.

Rivers. What is a River? Roy E. Oltman. 32:22-5. January 1965.

Sampling apparatus. Water Sampling Apparatus and Determination of Dissolved Oxygen in Water. Thomas P. Evans. 36:56-7. May 1969.

Sand dunes. The Ecology of Sand Dunes. William H. Amos. 35:15-9. February 1968.

Sea-Floor Spreading. The Role of Geophysics in the New Global Tectonics. Albert J. Rudman. 36:21-6. October 1969.

Sediments. Waters of the Earth. Raymond L. Nace. 30:6-13. April 1963.

Sediments on sea floor. Microrelief on the Sea Floor. Carl J. Shipek. 28:7-13. October 1961.

Sorting of oceanographic information. The Smithsonian Oceanographic Sorting Center. Staff of the Smithsonian Oceanographic Sorting Center. 36:29-31. March 1969.

Summer course. Marine Biology -- A Summer Enrichment Course. Ronald B. Linsky. 34:40-1. September 1967.

Summer course at Falmouth, Mass. Oceanography: A Vehicle for Integrating Science Concepts. L. Forbes, G. B. Thomson, and J. Soderberg. 36:40-2. March 1969.

Summer course for teachers. Oceanography for Teachers, a Unique Summer Program. Victor T. Neal. 35:37. February 1968.

Surface tension. Physical Properties of Liquid Mixtures. Allen L. Hanson. 28:43-7. February 1961.

Teacher training. Oceanography for Teachers, a Unique Summer Program. Victor T. Neal. 35:37. February 1968.

Teacher training. Aboard the Ridgely Warfield -- Earth Science Teachers Go to Sea. J. R. Schubel. 36:36-8. March 1969.

Temperature effect on respiration of fish. An Environmental Study in Biology. Thomas M. Haynes. 28:33-7. April 1961.

Tides. An Investigation of the Tides: Are They Related to the Moon? Robert G. Anderson. 25:21-3. April 1968.

Tides. Ocean Tides. Steacy D. Hicks. 32:11-4. December 1965.

Underground reservoirs. Waters of the Earth. Raymond L. Nace. 30:6-13. April 1963.

Underwater exploration. Biological Diver Under Antarctic Ice. Otis Clingman, Jr. 33:23-7. December 1966.

Underwater exploration. Steps in Man's Return to the Sea. Walter F. Mazzone. 33:21-3. November 1966.

Viscosity. Physical Properties of Liquid Mixtures. Allen L. Hansen. 28:43-7. February 1961.

Viscosity. A Simple Method for Measuring Relative Viscosities. Richard W. Moore. 34:65-6. March 1967.

Water, behavior of molecule. H_2O in Biological Systems. Robert K. Jennings. 32:15-7. February 1965.

Water budget. Our Last Valley -- Who will Listen? Editor. 32:33-4. December 1965.

Water in living cells. H_2O in Biological Systems. Robert K. Jennings. 32:15-7. February 1965.

Water quality. Our Last Valley -- Who Will Listen? Editor. 32:33-4. December 1965.

Water resources. Global Thirst and the International Hydrological Decade. Raymond L. Nace. 32:12-6. January 1965.

Water sampling apparatus. Water Sampling Apparatus and Determination of Dissolved Oxygen in Water. Thomas P. Evans. 36:56-7. May 1969.

Water-soluble mounting medium. Biological Specimen Preparation. Frank E. Wolf. 30:15-8. May 1963.
